## OBJECTIVE

Passionate web developer with a strong foundation in PHP (CodeIgniter and Laravel), HTML, CSS, and JavaScript. Currently advancing expertise through intensive training in JavaScript, React, and Node.js, with a relentless drive to excel in modern web development. Committed to creating seamless and user-centric web experiences, I aspire to leverage my existing skills and newfound proficiency to contribute innovative solutions to forward-thinking employers in the realm of modern web development. My dedication to continuous learning and delivering exceptional web solutions drives my pursuit of becoming a top-tier Front End Developer.

## SUMMARY

- Familiarity with React and a strong desire to expand skills to include Flutter.
- Strong understanding of APIs and real-time communication protocols (WebSocket, WebRTC).
- Meticulous attention to detail, ensuring pixel-perfect adherence to design specifications.
- Passion for continuous learning and exploring new front-end technologies.
- Startup mentality with the adaptability to take on expanding roles.

## WORK EXPERIENCE

### Techffodils Technologies LLP/ Software developer

Nov 2019 – Oct 2022

- Develop and maintain web applications using PHP Laravel/CodeIgniter and work closely with cross-functional teams to define project scope and gather requirements.
- Wrote well-designed, clean, and testable code, maintaining a strong focus on security and scalability, setting industry standards.
- Demonstrated initiative in troubleshooting, debugging, and optimizing existing systems for lasting solutions. And keep up to date with new and emerging web development technologies and practices.
- Successfully executed the full software development life cycle (SDLC) with precision and agility.
- Documented software features and functionalities for present and future reference, ensuring smooth implementation.

### KELTRON / Internship Trainee

Mar 2019 – Sep 2019

- IT Internship programme in LAMP (Linux, Apache, MySQL, and PHP)

- Developed and tested web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Assisted in creating and maintaining databases, writing SQL queries, and optimizing database performance. Participated in code reviews and contributed to improving the quality of the codebase.

## EDUCATION

### MIT xPRO Professional Certificate in Coding: Full Stack Development with MERN

Aug 2023 – PRESENT

Build, test, and deploy a web application using the MERN stack, APIs, a front-end web application using React and backend using Node.js. Setup Continuous Integration (CI) and Continuous Delivery (CD) pipelines to deploy a React application.

### BTech in Computer Science, Cochin University of Science & Technology (CUSAT)

2014 - 2018

Kerala, India

Relevant Coursework:

- Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Web Development (HTML, CSS, JavaScript), Software Engineering

## WORKSHOPS / TRAINING

Event	Institution	Year
Paper presentation – Object detection from SAR Images based on Curvelet Despeckling	International Multi-Conference on Computing, Communication, Electrical & Nano Technology	Apr 2018
Raspberry Pi Programming workshop	Neo Green Labs	Sep 2016
Android App Development	Computer Society of India	Oct 2017
Web designing + PHP programming	AdHoc Technologies PVT LTD	Mar 2017

## SKILLS

CATEGORY	DETAILS
Programming	JavaScript, HTML & CSS, REST API, PHP, CodeIgniter, Laravel
Database	MySQL
Development	UI Design, E-commerce websites, UML
Version Control	Git, TortoiseSVN
